

## IEA-PVPS Task 1 Workshop on SNEC 2016

### Pathway of Distributed Power in Electricity Selling Market Reform

**Organizer:** PV Committee, China Renewable Energy Society

IEA-PVPS Task 1

**Co-organizer:** China Variable-Generation Integration Group (CVIG)

Asian Photovoltaic Industry Association (APIVA)

International Copper Alliance (ICA)

ShenZhen Solar Energy Society (SZSES)

**Time:** 9:00-12:30, May 25th 2016

**Location:** Multi-function hall 3, Kerry Hotel in Pudong, Shanghai, China

**Language:** Simultaneous Interpreting in Chinese& English

#### **Schedule:**

#### **9:00-9:10 Brief welcome remark**

Host: Xu Honghua

China's Representative, IEA PVPSEXCO

Researcher, Institute of Electrical Engineering, Chinese Academy of Sciences

Chairman, Beijing Corona Science & Technology Co., Ltd.

#### **9:10-9:30 PV business models of residential PV system with electricity market reform**

Izumi KAIZUKA

Japan's Representative, IEA PVPS Task 1

Senior Manager, Research Division in RTS Corporation

#### **9:30-9:50 Distributed PV in Malaysia: market growth and challenges**

Frederick Wong

Malaysia's Representative, IEA PVPS Task 1

Assistant Director, Feed-in-Tariff (FiT) Department, Sabah Branch of Sustainable Energy Development Authority Malaysia (SEDA Malaysia)

#### **9:50-10:10 Australia distributed PV and self-consumption research (TBD)**

Linda Koschier

---

Australia's Representative, IEA PVPS Task 1

Director, Strategic Development Photovoltaic Centre of Excellence, School of Photovoltaic and Renewable Energy Engineering, UNSW AUSTRILIA

**10:10-10:20 Method research on distributed PV participating in electricity selling market**

Li Qionghui

Director, New Energy Division of State Grid Energy Research Institute

**10:20-10:40 Research on distributed energy projects in Shenzhen international low carbon city participating in electricity selling**

Zhang Yandong

General manager, Guangdong Branch of Beijing Energy Investment Holding Co., Ltd.

**10:40-11:00 Best practices and policies for distributed PV**

Gaëtan Masson

Operating Agent, IEA-PVPSTask 1

**11:00-11:20 Distributed PV in the EU - Current regulations and future needs**

Arnulf Jäger-Waldau,

PhD, European Commission Joint Research Centre, Renewables and Energy Efficiency Unit

**11:20-12:20 Panel Discussion**

**Host:** Peng Peng Director of Policy Research, Chinese Renewable Energy Industries Association

**Guests:**

Xu Honghua

Zhao Yongqiang (Vice Researcher, Institute of Energy Research National Development and Reform Commission)

Li Qionghui

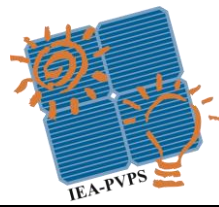

Gaëtan Masson

Arnulf Jäger-Waldau

Hu Bing (Vice president, Plant Division, Sungrow Power Supply Co., Ltd.)

**Topics:**

- Necessity, methods and market mechanism of distributed PV participating in electricity selling market;
- Power supply service and power selling rights of distributed power operation main body;
- Business module and electricity price mechanism of direct power supply to

---

customers within micro-grid from distributed power;

- Feed-in tariff and settlement, electricity transmission and distribution pricing mechanism and innovation policy for distributed power
- Supervision and policy on distributed PV electricity generation/ micro-grid electricity selling

**12:20-12:30 Meeting Summary**
