

Welcome to Albuquerque, New Mexico

- **Joshua Stein (Sandia National Laboratories, USA)**

Task 13 Continuation?

- What is the process and schedule for considering an extension?
- Is there interest among the group participants?
- What new topics would be worth focusing on?

Ideas to Consider

- What National Initiatives exist for promoting PV?
 - E.g., SunShot program in the US
- Identify the common goals and approaches.
- Which current focus areas should continue?
- Identify current gaps in PVPS
 - Future module models
 - Bifacial, flexible, thin film, CPV?
 - PV systems
 - Inverters
 - Integrating energy storage
 - Safety concerns (fire safety)
 - Module-scale electronics
 - New system designs
 - Others....
