

# Report C2

## *Analysis of requirements, specifications and regulation of BIPV*

- Focuses on the requirements, specifications and regulations relevant to the development of BIPV performance and safety standards
- Presents a comprehensive list of possible requirement items and analyses specifications and regulations related to BIPV
- Provides information and proposals to support the development of international BIPV standards
- Already used in preparation of IEC 63092

# Content

## Overview of specifications and regulations

- International standardisation of BIPV
- Standards which address BIPV but are not dedicated BIPV standards
- Analysis of existing international standards
- History of BIPV standardization
- Technology mapping of BIPV standards
- Relevant international standards corresponding to European standards in EN50583

## Requirement analysis

- Requirement items for BIPV
- Requirement categorization
- Requirement level for international standardization of BIPV
