

## Questionnaire FPV parallel session – EU PVSEC

**1. Is FPV (one of) your research field(s)?**

Alternatives: a) No, b) Yes

Comment: if yes – what (within FPV) is the focus of your research?

**2. Are you on the author list of this report?**

Alternatives: a) No, b) Yes

**3. Does your group/department perform research on FPV?**

Alternatives: a) No, b) Yes

Comment: if yes – what (within FPV) do your group/department work with?

**4. Based on your impression of FPV – how do you expect and FPV system to perform compared to a GPV system located on the banks of the same lake/sea?**

Alternatives: a) much better performance, b) a little better performance, c) same performance, d) poorer performance, e) I cannot know

**5. What, in your opinion, is the greatest challenge for FPV research?**

Comment:

**6. If you or your group/colleagues have performed analysis of U-values for specific FPV technologies, do your results align (approximately) with the U-values presented here today?**

Alternatives: a) Yes b) No

Comment: Please insert your email if we can contact you for more information.

**7. Are there other topics within the scope of the report where you (your group) have information/analysis/results that is either lacking or contradictory to the content presented today?**

Alternatives: a) Yes b) No

Comment: Please insert your email if we can contact you for more information.

**8. Do you have data (production and irradiance as a minimum) from an FPV system that you can share with the research community?**

Alternatives: a) Yes b) No

Comment: Please insert your email if we can contact you for more information.

**9. Do you have other comments to the content of the report?**

Comment:
